

Automatic toll plazas

Automatic toll plazas do not have manned toll booths, coin baskets or credit card-readers.

Drive through without stopping!

As at 1 July 2008 ten city toll rings and individual stretches of toll road have been equipped with automatic toll plazas. These are:

Oslo
Bergen
Tønsberg (Vestfold)
Haugesund og Tysvær (Rogaland)
Rv. 2 Kløfta – Nybakk (Akershus)
Rv. 9 Setesdal (Vest-Agder)
Rv. 45 Gjesdal (Rogaland)
Rv. 544 Halsnøysambandet (Hordaland)
Rv. 680 Imarsundforbindelsen (Møre og Romsdal)
Rv. 653 Eiksundsambandet (Møre og Romsdal)

Payment at automatic toll plazas

If you do not have an AutoPASS tag, your vehicle's registration plate will be photographed and the owner will be sent an invoice through the post at no extra charge. Toll charges are generally accumulated over a three-month period and invoiced together. If the invoice is not paid by the specified due date, you will receive one reminder before a NOK 300 penalty charge is issued.

Vehicles not registered in Norway are invoiced through Euro Parking Collection plc (EPC) in London.

You may also pay the toll at a service station located near the toll plaza within a period of three working days.

Call 02012!

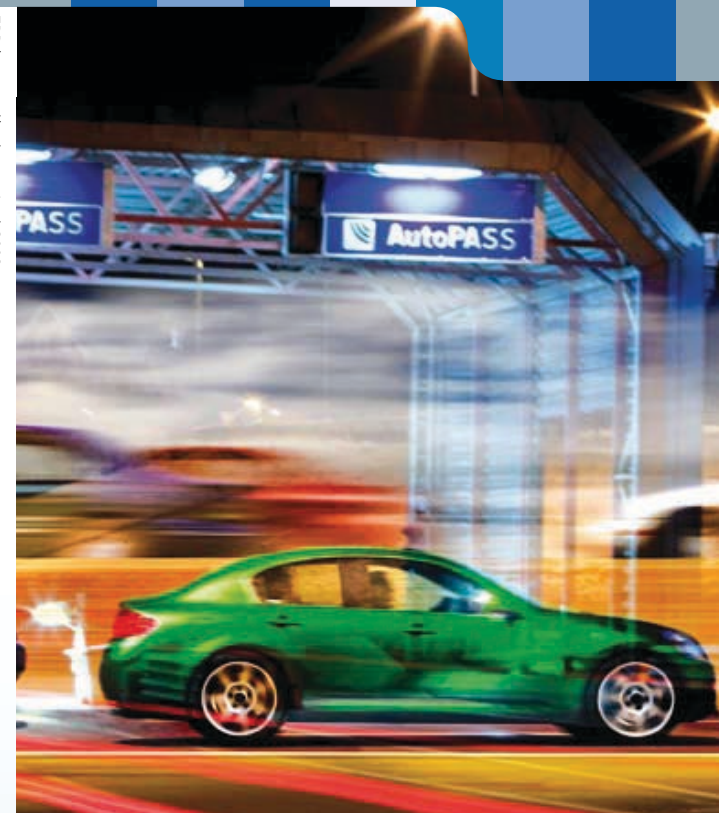

If you have driven through a toll plaza in the wrong lane, please call 02012 for details of how and where to make payment.

Want to complain?

If you wish to complain about a toll or penalty charge that you have been issued, please contact the toll road operator that has issued the invoice.

Passing through Norwegian toll plazas

Statens vegvesen

Norwegian Public Roads
Administration

Which lane should I use?

Drivers of vehicles not registered in Norway should normally use the lane marked "Mynt/Coin" or "Manuell" (manned toll booth). Not all toll plazas have manned booths. Instead you pay by tossing the exact change into a basket. The machines accept Norwegian coins only. Unmanned toll plazas also accept credit card payment.

Penalty charge

If you drive through in the AutoPASS lane without having an electronic AutoPASS tag in your vehicle, you risk a NOK 300 penalty charge, in addition to the toll fee.

AutoPASS

AutoPASS is the Norwegian system for electronic payment of road tolls. Vehicles not registered in Norway may also join the AutoPASS system. If you have an AutoPASS tag in your vehicle you should use the lane marked "AutoPASS" or "Ikke stopp / Do not stop".

To use AutoPASS you must first establish an account for your vehicle and make an advance payment. Each time you pass through

There are two types of toll plazas in Norway:

1. Plazas where you can stop and pay, either by using a coin basket (exact change) or at a manned toll booth (change given)
2. Automatic toll plazas where all vehicles drive straight through (payment by invoice)

an AutoPASS toll plaza, the amount of the toll is deducted from your account. Joining AutoPASS can be worthwhile if you are planning on doing a lot of driving in Norway. See www.autopass.no for details of how to join AutoPASS.

You will have to pay a NOK 200 deposit to obtain an electronic tag, which you must install inside your vehicle. The amount of the advance payment and the deposit varies from toll road operator to toll road operator.

When you leave Norway you can return your AutoPASS tag to the toll road operator by post and terminate your contract. The deposit for the tag and any money remaining in your AutoPASS account will then be refunded.

Do you have a BroBizz?

If you have a BroBizz from Denmark or Sweden, you should use the lane marked "AutoPASS" or "Ikke stopp / Do not stop".
